DETAILED ACTION

Allowable Subject Matter

1. Claims 1-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: The cited prior art (U.S. Patent 6,072,906 (Sato)) fails to disclose quantization means for quantizing data corresponding to a pixel in a pixel block produced by conversion means, in combination with conversion tables each containing a plurality of items of conversion data, each item corresponding to a pixel position in each pixel block obtained by division by dividing means; and conversion means for converting, by referring to said conversion tables, multi-level image data of a pixel of each pixel block obtained by division by said dividing means, into data corresponding to that pixel in the pixel block, as recited in amended base claim 1, and as similarly recited in base claims 5, 10, 14 and 18. No other prior art has been found to disclose or suggest the combined limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
